New Salem (Bloody Bakersfield Book 3) - Christian H. Smith 2016-06-21

It's Halloween weekend in the bloodiest little town in Illinois, and the good citizens of Bakersfield are already on edge. The memory of the sleepwalking sickness is still fresh in their minds—so when a photo from a botched home birth accidentally goes viral, the simmering tensions explode. The still-born infant has horns on her head. A mass panic witch hunt soon follows and claims innocent lives—even as real witches wreak massive havoc upon the town. Their malevolent tricks and malicious treats thrust Bakersfield once again into pure bloody chaos. Meanwhile failed author Mark Davies, confronts something just as terrifying. Two years after his divorce, he's finally jumping back into the dating game. Worse, his beautiful and mysterious co-worker Ellie Tarwater is the queen of the mixed signals. She's also a practicing witch. Mark is drawn into the strange world of the actual coven "Bell's Angels," devoted to the memory of the powerful witch Adaleen Bell, lynched by the citizens of Bakersfield during the Great Depression. Wicked Adaleen has been buried for more than eighty years, burning with desire to exact her bloody vengeance upon the town—and the coven is planning to raise her from the grave. This time, Bakersfield may not survive Halloween.

Introduction to Medical Imaging Management - Bernard Rubenzer 2013-01-14

In the past, for the most part, people who moved into management positions in medical imaging were chosen because they were the best technologists. However, the skill set for technologists and supervisors/managers are vastly different. Even an MBA-educated person may not be ready to take on imaging management. As an example, when buying a very expensive piece of imaging equipment, this person would not necessarily know the right questions to ask, such as: What is my guaranteed uptime? Is technologist training included? *Introduction to Medical Imaging Management* is a comprehensive reference for medical imaging managers learning through a combination of education and experience. This thorough book provides an in-depth overview of every major facet pertaining to the knowledge and skills necessary to become a department or imaging center supervisor or manager. The text follows a natural progression from transitioning into a management position and dealing with former peers through the most sophisticated skills uniquely applicable to medical imaging management. Covering all aspects of the profession—operations, human resources, finance, and marketing—this reference is a must-have for any potential, new, or less experienced imaging manager.

Confidential Informant - John Madinger 1999-10-22

He baffled and eluded law enforcement officers for nearly two decades. In the end, however, it wasn't the painstaking forensic analysis of hundreds of pieces of crime scene evidence that led to the capture of the Unabomber-but the lucky tip of an informant. Truth of the matter is, for all their sophistication and hi-tech science, crime-fighting techniques such as fingerprint and DNA analysis are a factor in less than one percent of all criminal cases. In the overwhelming number of crimes, informants have provided the necessary ammunition needed to bring criminals to justice, from Genovese to Gotti and Capone to Dillinger. *Confidential Informant: Understanding Law Enforcement's Most Valuable Tool* explores the covert and clandestine world of informants-revealing the secrets of how to find them and make the most out of them, while at the same time, avoiding the pitfalls of dealing with them. Using case studies in which informants played key roles in solving crimes, the book examines all aspects of informant development and management, from the motivation of the informant to the legal problems that accompany the use of informants in criminal cases. Written by John Madinger, a former narcotics agent, supervisor and administrator, and currently a Senior Special Agent with the Criminal Investigation Division of the Internal Revenue Service, *Confidential Informant: Understanding Law Enforcement's Most Valuable Tool* examines the emotional and behavioral characteristics of the informant, as well as the psychology of trust and betrayal. The book also illustrates techniques for improving interviewing and communication skills when dealing with informants, and provides invaluable forms that can be used in connection with these vital sources of information.

Spasticity Management - Valerie L. Stevenson 2016-04-27

Spasticity is a common symptom that arises in a wide range of neurological conditions. Unfortunately, a poor understanding and inadequate management of spasticity often results in it having a greater impact on patients than necessary. Using a multidisciplinary approach, *Spasticity Management: A Practical Multidisciplinary Guide* provides the essential knowledge for the effective management of spasticity as well as the practical tools for developing wide-ranging services. In line with the previous edition, this book emphasises the importance of all team members being involved in educating the individual with spasticity and, if appropriate, their carers and families. Thoroughly updated, this edition discusses new medications available for spasticity management, increased coverage of postural management via occupational therapy input, and pragmatic guidance using illustrations, algorithms and linkages to real-world clinical practice. New chapters have been added to address individuals making the transition from paediatric to adult services as well as the provision of optimal end-of-life care. Also included are real-life case studies to emphasise learning points while engaging the reader, making this a valuable guide to any practitioner involved in managing spasticity.

Negotiating Managed Care - Michael A. Fauman 2008-08-13

For many psychiatrists and other mental health professionals, the clinical review is the most burdensome and disagreeable part of managed care. In that review they are asked, by a representative of the managed care company, to justify their patient's need for care and to defend the treatment they are providing. Clinicians usually feel at a disadvantage in these discussions because they are never quite sure what information the reviewer needs to approve the patient's care. This does not have to be the case. The goal of this book is to teach psychiatrists, mental health professionals, and administrators how reviewers think and how to conceptualize, present, and document clinical care in a manner that greatly increases the likelihood that reviewers will approve their request for care. Beginning with five questions that must be answered in every managed care review, the author discusses the following key topics and many others. Presenting your case to a reviewer -- How to effectively present requests for inpatient, partial hospital, and substance abuse care and avoid common mistakes that decrease the likelihood that your request will be approved. How to answer the four clinical questions that must be addressed in every review even if they are not asked by the reviewer. Negotiating with the reviewer -- How to negotiate with a reviewer who is reluctant to approve the care you request. Writing effective notes -- How to write effective clinical notes in the patient's record that substantiate your request for care and increase the likelihood that it will be approved. Dealing with unethical reviewers -- How to identify and take action against unethical reviewers and managed care companies that are insensitive to your patient's clinical needs. Appealing denials of care -- How to appeal denials of care when you do not agree with the reviewer's decision. These and many other important issues are highlighted in brief vignettes illustrating a clinician's presentation of a patient's case and a typical reviewer's comments. This tremendously useful volume will be welcomed by every mental health care practitioner who must negotiate the current managed care landscape.

Umiker's Management Skills for the New Health Care Supervisor - Charles McConnell 2010-10-25

Today's healthcare supervisors are continuously faced with smaller budgets, fewer workers, greater responsibilities and time pressure. The all new Fifth Edition of *Umiker's Management Skills for the New Health Care Supervisor* continues to provide valuable information for future health care managers and supervisors who must address these challenges daily. Written primarily for those who have little to no management training, *Umiker's* offers practical suggestions for improving effectiveness both as a supervisor and as an organization. Ideal for students in junior undergraduate, community, and career college programs, author Charles McConnell maintains Bill Umiker's clear, jargon-free writing style.

Heartaches of Love - Harold Shelton 2003-08-18

Clouds of uncertainty loomed heavily over the nation in the early 1940's. Such is the case in *Heartaches of Love* when young Billy Johnson was called to serve in the military just as he and Sally, his high school sweetheart, were making plans to marry and work the family farm. Shortly after arriving in Germany, Billy was sent into battle but did not return. Was he dead or alive? Fearing him dead, Sally waited for months, then years. Miracle of miracles, Billy was found alive. Returning home, with love still alive, he and Sally were married within a month.

Have Thumb, Will Travel - Mike Woodrum 2012-09

This book is one man's quest to find his own version of a pot of gold which is found in the corner of any part of America where one can find beauty,

brotherhood, or natural phenomena as beautiful as the Badlands, or man-made Mt. Rushmore. It is more than that, it is about having a disability while seeking out these riches, and not letting it be a burden, while finding ways to mix in with the common people of the country who are the ones who give the true meaning of the character of their towns and cities. Faced against so many who are unable to let themselves even try to understand what epilepsy is like, he often finds it easier to take to the woods and live with nature, if not for the times he must resurface to find a way to get more medication so his quest can continue.

The Mayflower Descendant - 1909

Know No Boundaries - Lateral Collateral 2013-12-12

It is neither a thesis, nor it is a novel, Not it is a fantasy, not even a fairy tale. With an event of mass disobedience we start, No shot is fired, no one is physically hurt. On a sunny day, at every airport of the world, People queue up for check-in with no visa in hand. One and all, in all the classes - economy, first or business, No one had a visa; world citizenship each like to harness. No international flight takes off From Wellington, where the day starts; From other airports of New Zealand too, No other plane departs. Nowhere in the world, from any airport, Took off any International flight. Following day was no different, And the following night. All airlines give up, No end of the tunnel, no ushering light. The main suspect behind these events was John. John's identity is however very clear; To all passengers he is very dear. For questioning his role in mass disobedience, Arrested was John, and served punishing sentence. He was punished to undergo forensic probes, For extracting his memoir and his hopes, To get the events that led him to his roles, To his visions to cross boundary ropes.

Love Too Late - James D. Hand 2012-05-25

Jerry Jones has gone out on a limb. At the age of 51, he took out a 30-year

mortgage to buy a vacant store located in Killington, Vermont, without his wife's approval. Feeling betrayed, Monica, his wife, determines to undermine Jerry's plans in retribution for his thoughtlessness and neglect. Along the way, Monica also toys with the possibility of a sexual fling with a man young enough to be her son. It's another way to hurt Jerry and fulfill what she is beginning to see as a pretty empty life. Clay, the young man, is interested in Sally, another older woman who is seeking to find her own place in life. Clay's Aunt Dora tries to guide her nephew onto the right path while she fights her own fears that someone or something is trying to harm her. She also has a deep need to keep a family secret. Successful more than she thought possible, Monica later faces a more challenging prospect than being ignored during a business deal: seeking redemption from Jerry who is succumbing to the ravages of Alzheimer's Disease. Set in eastern Vermont, this story portrays how emotions govern lives, causing individuals to consider adultery, deceit, revenge, and the taking of a life. It all culminates in a nursing home during a special Christmas, where peace is finally found.
